APPENDIX.

HINDU LAW OF INHERITANCE BILL.

STATEMENT OF OBJECTS AND REASONS.

It is a matter of common knowledge that many of the provisions of Hindu Law, particularly in the field of inheritance, have become unsatisfactory and inequitable under modern conditions of Hindu society. The exclusion

of women as a class and of such unfortunate persons as are afflicted with blindness, incurable leprosy and the like from all rights of inheritance, the restrictions imposed on women in the enjoyment of properties inherited by them, the priorities of distant agnates over such near and dear relations as the son's daughter, sister's son and the like, the disadvantageous position of the widow and daughters of a coparcener who dies undivided, the rights of an outcaste and the distinction between illegitimate children of different classes, are all matters over which Hindu society feels aggrieved under the altered conditions of life and thought. With a view to modify the law and bring it into harmony with the just and equitable demands of society this bill has been enacted, the ambit of the modifications being restricted to the law of inheritance.

It is proposed to remove sex disqualification. This will bring into the fold of heirs many of the nearer relations who are at present altogether excluded ; such for instance, as the Daughter-in-law, Step-mother, Brother's widow and so on. It is next proposed to alter the order of succession so as to give the Daughter, Daughter's Daughter, Sister, Sister's son and the like preference over all agnates beyond the Father's father. It is proposed to consider all estates acquired by a woman by inheritance or otherwise as her absolute estate in accordance with the dictum of *Vigñaneswara*. The disadvantageous position of the widow and daughters of an undivided coparcener tending to disrupt the family is sought to be removed by declaring them entitled to all such rights in the joint family as they would have enjoyed if the coparcener had died divided. The exclusion of the blind, the deaf and dumb and so on is removed; and every Hindu male or female is declared entitled to inherit. The anomaly of a person ceasing to be a Hindu and still claiming to inherit in a Hindu family is sought to be removed by declaring that he shall forfeit his rights of inheritance under the Hindu Law. It is, however, made clear that he shall not be deprived of such properties as he may be already possessed of, either separate or self-acquired. Illegitimate children of all classes are held equally entitled to inherit in the manner and subject to the conditions now obtaining in respect only of a class.

Text of the bill.

Whereas it is just and expedient that the principles of

the Hindu Law of Inheritance as at present administered in the territories of Mysore should be modified in certain particulars, it is hereby enacted as follows:—

Chapter I.

1. This regulation shall be called "The Hindu Law of Inheritance Regulation of 1928."

2. It shall extend throughout the territories of His Highness the Maharaja of Mysore.

3. It shall come into force on and from the 1st day of January 1929.

4. It shall apply to all persons of either sex who, being subjects of His Highness the Maharaja of Mysore, are Hindus by birth, religion or persuasion and all such persons as are governed by Hindu Law.

Chapter II.

5. No person of either sex shall by reason only of his or her being either dumb or deaf, blind, insane or lame, an incurable leper or all or any of these or afflicted with other physical or mental defects be excluded from inheritance.

Provided that the District Court, or such other court as may be authorised in this behalf, may of itself, or on being called upon, appoint a guardian of the person or property or both of such persons as may be incapable of managing themselves or their property by reason of such defect or defects.

6. No woman shall be excluded from inheritance by reason only of her sex.

7. The order of succession in the case of separate and self-acquired properties of an intestate Hindu male shall be modified as follows:—After the Father's father and before the Father's brother the order shall be:—Son's daughter, Daughter's daughter, Sister, Sister's son, Daughter-in-law, Brother's daughter, Sister's daughter, Step-mother, Brother's wife.

8. All properties acquired by a women by inheritance, gift, purchase, partition, seizure or finding shall be her *Stridhana* enjoyable by her as her absolute estate, provided however that a gift made expressly of a limited estate shall not be deemed to confer an absolute estate.

9. Widows and daughters of a deceased undivided coparcener shall have the same rights in the family estates as if the coparcener had died divided.

10. Notwithstanding anything contained in the Freedom of Religion Act XXI of 1850 a person who has ceased to be a Hindu shall forfeit all rights of inheritance under the Hindu Law, provided that he shall not be divested of any such properties as he might already be possessed of, either separte or self-acquired.

11. Irrespective of caste all illegitimate children shall have the same rights of Inheritance subject to the same conditions as are now in force in respect only of a class.

CHAPTER III.

12. Notwithstanding anything contained in this regulation no estate, interest, property or right already vested before the said 1st day of January 1929 in any person shall be divested.

Explanation—For the purposes of this section coparcenary right in joint family property shall not be deemed to be a right already vested.

13. Nothing in this regulation shall be deemed to affect any right to an office or any religious of charitable institution.

14. Nothing in this regulation shall affect any family custom or usage having the force of law or any of the principles of Hindu Law save in so far as they have been modified herein.

BANGALORE,
12th October 1928.

Ex-officio *Secretary*,

CHIEF SECRETARY TO GOVERNMENT.—

A.—21. (*a*) Lists are obtained of eligible candidates from the Deputy Commissioners of Districts and Heads of Departments and a final selection is made with the approval of Government after considering the merits of each candidate. In order to ensure that the representation of candidates of the backward communities in the Amildari service is adequately provided for, the cases of the officials of all Departments belonging to the backward communities who are in receipt of salaries not less than Rs. 50 per month and who have passed the Revenue Higher and the Criminal Higher Examinations are considered eligible for inclusion in the list, while in the case of Brahmin candidates selection is made from the Revenue and some select Departments, the qualification required in their cases being a pass in the Revenue Higher, Criminal Higher and Accounts Lower Examinations.

Q.—26. Will the Government be pleased to answer the following:—

(1) How many tanks are getting water from the Suvarnavathi River?

(2) What is the total extent of lands irrigable under these tanks?

(3) Is it a fact that Government intended to construct an anicut near Chamarajnagar? When was it?

(4) What arrangements were made for this?

(5) What has been spent on it?

(6) What are the reports received by Government on this, year by year?

(7) What are the probable quantity of water that can be stored in times of good flood?

(8) Will not the construction of anicut be a source of income to Government and of benefit to the people?

(9) Will action be kindly taken to construct the anicut at the earliest opportunity?

SECRETARY TO GOVERNMENT, DEPARTMENT OF PUBLIC WORKS.—

A.—26. (1) The number of such tanks in the Chamarajanagar and Yelandur Taluks is 13. Besides these there are some three tanks depending on this river for supplies in Kollegal Taluk.

(2) About 8,600 acres in the State.

(3) Proposals were prepared some years ago for constructing a reservoir on this river near Byadamudlu.

(4) The work was not taken up as the question of supplies had to be properly investigated especially under the changed conditions created by the Cauvery Agreement with the Madras Government.

(5) About Rs. 12,000 so far, including investigations made 20 years ago.

(6) The recent reports show that supplies are very inadequate and that a reservoir may not be feasible.

(7) The river was actually gauged at the site proposed in 1924 and 1925 and the total supply available was found to be very small and insufficient even for filling the existing tanks which depend for their supply on the river. In fact the tanks have not filled for many years recently. Therefore it is very doubtful if it will be practicable to construct a reservoir on this tank. However, the question of supplies that may be available for new irrigation after satisfying the rights of existing irrigation is being examined carefully.

(8) and (9) See the reply to part (7) above.

MR. K. N. PUTTANNA (Chamarajnagar Taluk).—

Q.—27. Will the Government be pleased to answer the following.—

(1) What is the Atchkat under Hongalvadi, Dodkere and Chikkere tanks in the Chamarajnagar Taluk?

(2) How many acres are being temporarily cultivated with wet crops by the use of water from the above channel and tanks?

(3) Have Government ever ordered that water cannot be supplied from the above channel and tanks for growing wet crops temporarily?

(4) Are not the raiyats representing for the last 10 years that, by temporarily permitting wet cultivation, the crops of the permanent Atchkatdars have suffered a good deal?

(5) If so, what measures did Government take or do propose to take to give relief?

SECRETARY TO GOVERNMENT, DEPARTMENT OF PUBLIC WORKS.—

MR. B. M. DEVEGOWDA (Belur Taluk).—

Q.—32. Will the Government be pleased to state:—

(*a*) How many years have elapsed since the construction of the Belur Bridge?

(*b*) What is the amount realised as toll on this bridge?

(*c*) Whether it is not possible to abolish this toll?

CHIEF SECRETARY TO GOVERNMENT.—

A.—32. (*a*) The construction was finished about the year 1894 or 34 years ago.

(*b*) Rs. 71,650 for 23 years from 1907 to 1928-29. Figures for previous years are not available.

(*c*) It is not proposed to abolish the toll on this bridge.

MESSRS. BALE VENKATARAMIAH (Hole-Narsipur Municipality), K. RAMANNA and GIDDEGOWDA (Hole-Narsipur Taluk).—

Q.—34. Will the Government be pleased to answer the following questions:—

(*a*) What is the number of Government English High Schools in the State?

(*b*) What is the number of boys and girls studying in these High Schools at present?

(*c*) What is the average amount realised every year from school fees for the last three years?

(*d*) What is the average number of students (male and female) receiving Government Scholarships for the last three years and what is the amount disbursed to them?

(*e*) What is the average number of students of both sexes holding freeships for the last three years and the amount of such freeships?

(*f*) Has it come to the notice of Government that poor boys and girls are discontinuing their studies after passing English Lower Secondary Examination as they cannot pay the school fees in the High School classes?

(*g*) Will it not conduce to the advancement of the State, if, in the High Schools, scholarships are stopped and education given free to all?

SECRETARY TO GOVERNMENT, DEVELOPMENT DEPARTMENTS.—

A.—34. (*a*) Seventeen for boys and 2 for girls.

(*b*) 1927-28, *Boys* 4,683, *Girls* 157.

(*f*) It is no doubt probable that some give up their studies at the end of the Middle School course on account of poverty. But provision is made for assistance to poor boys prosecuting higher education. Twenty per cent of the total number of boys in High School classes excluding scholarship holders and those exempted from payment of fees, are treated as free students irrespective of the community to which they belong. Girls are taught free in High Schools.

(*g*) It is not possible to give universal free secondary education under the present financial conditions.

MESSRS. JOGANNA GOWDA and NARASIMHA GOWDA (Channarayapatna Taluk).—

Q.—35. Has it come to the notice of Government that—

(1) the restoration of the tank at Kabbali, Hirisave Hobli, Chennarayapatna Taluk, remains undecided from a very long time ?

(2) Has the project been prepared; if so, what is its cost?

(3) Is it true that the raiyats have agreed to pay and credited the *pro rata* share of their contribution to the Treasury? If so, why is the work still not taken up?

(4) What are the views of Government for the work being taken up during 1928-29?

(1) What is the view expressed in the report of the Traffic Superintendent about the extension of the Chitaldrug-Chikjajur Railway being remunerative or not?

(2) Which of the two lines— Chitaldrug to Rayadurg or Chitaldrug to Tumkur—the Government have thought of taking up early?

(3) Will the Government be pleased to extend the Railway line, in view of the fact that this district was the first in readily giving its consent to the levy of Railway Cess?

(4) Is it possible to state the number of miles of the proposed Railway line from Chitaldrug to Tumkur? What would be the probable cost of the line?

(5) What is the accumulated Railway Cess so far

collected both in Chitaldrug and Tumkur Districts? Will that not amount to Rs. 13 lakhs with up-to-date interest thereon?

(6) Does not the Railway Cess to be collected every year in Chitaldrug and Tumkur Districts come up to one lakh of rupees?

(7) What is the difficulty in starting the work out of the accumulated Railway Cess supplemented by the Government grant? If it is not possible to start the work at once and complete it at one stretch, will the Government be pleased to take up the scheme and work it up in portions year by year as funds become available?

(8) Is there any doubt that the interest on the capital cannot be realised even with the prospect of collecting Railway Cess of a lakh of rupees a year besides the income from the Railway line? If so, what are the details?

(9) Do not the Government think that the extension of the Railway line would create facilities to improve trade, to export food-stuffs to Madhugiri and other parts where famine frequently occur and to give labour to so many classes who are now without any employment? If so, in what year will this work be taken up?

(10) If the Government do not intend to take up the work shortly, will they at least order the temporary cessation of the levy of the Railway Cess till such time as the scheme is taken up?

Chitaldrug	..	..	Rs. 6,96,480-11-0

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

READ:—

Circular letter No. 8611-18—V.P. 24-26-2, dated the 2nd June 1927, to the Deputy Commissioners of Districts, issuing instructions in regard to the completion of works undertken from Drinking Water Wells Fund.

ORDER NO. L. 8923-40—V.P. 10-27-49, DATED 21st JUNE 1928.

As it has been brought to the notice of Government that grants made out of State Funds for the construction of wells in rural areas during the year are insufficient to meet the programme of well works taken on hand, Government are pleased to direct that such grants may be supplemented by grants from the balance at the credit of District Boards under the head "Drinking Water Wells Fund."

2. Deputy Commissioners are requested to supply Presidents of District Boards with a full statement of their incomplete works and it will be open to the latter either to take over such incomplete wells and complete them or to make such grants as the funds at their credit permit.

3. Programme of well works in rural areas should in future be fixed by the Deputy Commissioners of Districts in consultation with District Boards after an examination of the resources available with both. As far as possible, all wells taken up during a year should be completed that year. A reserve should always be kept for meeting emergent demands which may arise on account of adverse seasonal conditions or other circumstances.

R. RANGA RAO,
General Secretary to Government.

To—The Deputy Commissioners of Districts.
The Presidents of District Boards (in the case of Kolar, Hassan and Bangalore, through the Deputy Commissioners of Districts).
The Comptroller to the Government of Mysore.
The Revenue Commissioner in Mysore.
